

Nathan R. Rumsey

Professional Background

Safety and Emergency Management Professional with 10+ years of experience leading organizational safety programs, life-safety compliance, emergency response planning, and multi-site facility readiness across high-acuity healthcare environments. Proven ability to develop and implement safety policies, conduct site assessments, manage SDS programs, coordinate drills, and ensure compliance with OSHA, ADA, and regulatory standards. ABCP-certified with advanced training in hazardous materials, incident command, and building safety evaluation. Skilled in cross-department coordination, safety committee leadership, and delivering emergency response training to diverse teams. Known for strengthening safety culture, improving audit performance, and enhancing organizational resilience.

Certification and Technical Skills

Risk Management and Safety Management Certifications.

- **ABCP**: Associate Business Continuity Professional (Risk management, Disaster Recovery, Continuity Planning)
- **OSHA 511**: Occupational Safety and Health Standards for General Industry
- 40-Hour HAZWOPER Certification
- ATC-20 Building Evaluator – Utah Seismic Safety Commission
- HERT / CERT / Emergency Response Training (Active shooter, fire, earthquake, medical, HazMat)
- **IS.100, IS.200, IS.317 CERT, IS.700, IS.800** (FEMA Incident Command and CERT Training)

Technical and Operational Skills

- Safety and Compliance Systems
 - OSHA standards application (General Industry, OSHA 511)
 - ADA compliance and life-safety code interpretation
 - SDS management, chemical safety, and hazardous materials documentation
 - Business continuity and disaster recovery planning (ABCP-certified)
 - Emergency Response Plan development and implementation
 - Incident response, root cause analysis, corrective action planning
 - Regulatory audits and safety program evaluation
 - Multi-site safety oversight (93 facilities)
 - Safety committee leadership and cross-department coordination
- Emergency Preparedness and Life-Safety
 - Conducting evacuation, fire, earthquake, and active-shooter drills
 - Life-safety equipment management (AEDs, first aid, 72-hour kits, evacuation chairs)
 - Emergency notification systems and NIMS/ICS coordination
 - Building and site safety assessments (ATC-20 certified)
 - Training staff on emergency response procedures and safety protocols
- Training and communication
 - Developing and delivering hybrid learning programs (LMS + in-person)
 - Competency testing design and evaluation
 - Safety training facilitation (HazMat, CERT)
 - Clear, concise documentation and workflow guides
 - Spanish – Fluent

Nathan R. Rumsey

- Facilities and Operations Support
 - Preventive and corrective maintenance
 - Facility inspections and audits
 - Contractor coordination and project support Primary, Alternate, Contingent, Emergency (PACE) Planning model
 - Work order management and maintenance scheduling

– Ogden, Utah

Education

- Masters of Professional Communication – (*Anticipated December 2026*)
 - Golden Key International Honor Society
- Bachelor of Arts – December 2024
 - Major: Organizational Communication
 - Emphasis: Training and Development
 - National Communication Association Honor Society
- Associate of Arts: Major in Spanish - April 2023
 - National Society of Leadership and Success

– Salt Lake City, Utah

Experience

September 2019 – Current

Project Administrator – Emergency Management and Safety Management

- Lead organizational safety and emergency preparedness across 93 clinical sites, ensuring compliance with OSHA, ADA, NFPA, and internal life-safety standards.
- Develop, update, and maintain safety programs, emergency response procedures, and site-specific safety plans aligned with regulatory requirements.
- Conduct facility inspections, site assessments, and life-safety evaluations, identifying hazards, documenting findings, and implementing corrective actions.
- Manage SDS documentation, hazardous materials workflows, and chemical safety compliance, including HazMat program development and staff competency testing.
- Coordinate and conduct evacuation, fire, earthquake, active-shooter, and disaster drills, ensuring staff readiness and regulatory compliance.
- Serve as Incident Command Liaison, supporting emergency response operations under NIMS/ICS and coordinating with law enforcement, fire, and emergency services.
- Oversee life-safety equipment including AEDs, first-aid kits, evacuation chairs, and emergency supplies; ensure readiness, maintenance, and documentation.
- Deliver safety and emergency response training to 100+ staff annually, including PPE, LOTO, HazMat awareness, disaster response, and emergency procedures.
- Redesign and manage the Safety Audit & Data Analysis Program, improving audit findings by 15% and contributing to a reduction in the Experience Modification Factor from 0.46 to 0.44.
- Create automated tracking systems and documentation that streamline workflows, improve compliance, and enhance operational efficiency.
- Support facilities projects through the Primary, Alternate, Contingent, Emergent (PACE) model, ensuring life-safety, critical infrastructure, and patient-care impacts are evaluated and mitigated.

Nathan R. Rumsey

– Salt Lake City, Utah (Continued)

Emergency Preparedness Specialist – Emergency Management and Safety Management

- Developed hybrid learning programs (LMS + in-person) to strengthen staff competency in emergency response, safety procedures, and disaster readiness.
- Conducted disaster response team training, including active shooter, fire, earthquake, and severe weather scenarios.
- Supported the development and delivery of emergency exercises, after-action reviews, and corrective action planning.
- Assisted in maintaining emergency response plans, hazard-specific procedures, and continuity of operations documentation.
- Collaborated with facilities, security, and clinical teams to ensure alignment between emergency procedures and operational needs.

Maintenance Engineer – Facilities and Engineering

- Maintained HVAC, plumbing, electrical, and BAS systems across hospital clinics, ensuring reliability and compliance with life-safety standards.
- Conducted fire alarm testing, life-safety system inspections, and preventive maintenance to support regulatory readiness.
- Coordinated with contractors and engineering teams on facility upgrades, repairs, and infrastructure projects.
- Served as Safety Coordinator for the Northern Service Delivery Area, leading safety meetings and supporting incident investigations.
- Implemented quality improvement initiatives that improved uptime, reduced risk, and enhanced operational efficiency.

– Clearfield, Utah

June 2015 – September 2019

Maintenance Technician / Team Lead / Interim Shift Supervisor

- Performed preventive and corrective maintenance on production machinery, ensuring mechanical and electrical reliability.
- Served as Interim Shift Supervisor, managing personnel, schedules, and operational priorities for night-shift production.
- Developed standard operating procedures to improve training consistency, safety compliance, and onboarding effectiveness.
- Led monthly safety meetings, resolved operational conflicts, and reinforced a culture of safety and accountability.
- Trained and coached operators on new software systems, process changes, and equipment operation.
- Oversaw die-cutting and press operations, ensuring quality, safety, and production goals were consistently met.
